

# JOURNAL OF PLASMA AND FUSION RESEARCH

*The Journal of the Japan Society of Plasma Science and Nuclear Fusion Research*

Vol. 83, No.4, April 2007

## Special Topic Article

Fluorocarbon Plasmas Used for Materials Processing Current Status and Issues	
1. Introduction .....	HORI Masaru 317
2. Background and Challenges for Plasma Etching Tool Development .....	SEKINE Makoto 319
3. Monitoring of Fluorocarbon Plasma .....	TATSUMI Tetsuya 325
4. Investigation of Etching Mechanism in Fluorocarbon Plasma .....	NEGISHI Nobuyuki and IZAWA Masaru 330
5. Electron Collisional Excitation Processes of Fluorocarbon Molecules and the Atomic and Molecular Database .....	TANAKA Hiroshi, HOSHINO Masamitsu, KATO Daiji, MURAKAMI Izumi and KATO Takako 336
6. Fluorocarbon Plasmas for MEMS (Micro Electro Mechanical Systems) Fabrication Process .....	HAYASHI Toshio 341
7. Development of Environmentally Friendly Zero-Emission and Recycle Nano-Etching Process .....	TAKAHASHI Shunji and HORI Masaru 346
8. Preparation of Low-Dielectric-Constant Films Using Fluorocarbon Plasma CVD Methods .....	SHIRAFUJI Tatsuru 350
9. Fabrication of Nanostructures Using Fluorocarbon Plasma Processing .....	HIRAMATSU Mineo, HORI Masaru, FAVIA Pietro and D'AGOSTINO Riccardo 356
10. Summary .....	HIRAMATSU Mineo 361

## Lecture Note

Research Guidance to Fast-Flowing Plasmas and Shock Waves	
4. Research Status of Fast Flows and Shocks in Space and Cosmic Plasmas	
4.1 Spacecraft Observation of Non-Stationary Shock Front .....	OKA Mitsuo and TERASAWA Toshio 367
4.2 High-Speed Jet and Slow Mode Shock in Solar Flares .....	KUSANO Kanya 372
4.3 Cosmic Jets and Rapidly Rotating Plasma Flows .....	KOIDE Shinji and SHIBATA Kazunari 378
4.4 Puzzles of Hawking Radiation and Its Simulation by Transonic Flow .....	OKUZUMI Satoshi and SAKAGAMI Masa-aki 387

## Review Paper

Electrical Insulating Properties of Ceramic Coating Materials for Liquid Li Blanket System under Irradiation .....	TANAKA Teruya, MUROGA Takeo, SHIKAMA Tatsuo, TSUCHIYA Bun, NARUI Minoru, NISHITANI Takeo, IIDA Toshiyuki, SATO Fuminobu, IKEDA Toshiji and SUZUKI Akihiro 391
---	--

**PFR Abstracts** ..... 397

**Announcement** ..... 397

**Information** ..... 398

**Plasma & Fusion Calendar** ..... 399

## Cover

Evolution of poloidal flux contours from 2D MHD simulation for proposed SPIRIT (Self-organized Plasma with Induction, Reconnection, and Injection Techniques) concept. The plasma merging experiments have been successfully carried out in MRX, SSX, and TS-3/4. (Masaaki YAMADA *et al.*, Plasma and Fusion Research Vol.2, 004 (2007). <http://www.jspf.or.jp/PFR/>)
