

# Call for Papers

## IEEE Transactions on Plasma Science Special Issue for Selected Papers from PLASMA 2017

The Plasma Conference 2017 (PLASMA 2017) will be held on November 20-24, 2017, in Himeji, Japan. It is a combined conference of 35th Symposium on Plasma Processing, 34th JSPF Annual Meeting, 2017 PSJ Autumn Meeting, and 30th Symposium on Plasma Science for materials.

The IEEE Transactions on Plasma Science is pleased to announce a Special Issue dedicated to this conference (to be published in November 2018) and is honored to invite all attendees to submit your manuscripts to it. The objective of this Special Issue is to provide the widest possible distribution of archival quality papers detailing up-to-date developments reported at PLASMA 2017. Contributions to the Special Issue will undergo the same rigorous review standards as typical for all IEEE Transactions and Journals.

IEEE policy requires that a manuscript submitted to the Special Issue must be significantly revised and lengthened from that published on the conference proceedings. Every submission to the Special Issue will undergo an automatic plagiarism check by comparing with articles previously published elsewhere.

This Special Issue is open to, but not limited to, all attendees of PLASMA 2017. The IEEE website “ScholarOne Manuscripts” at <http://mc.manuscriptcentral.com/tps-ieee> will be used for electronic manuscript submission. The submission deadline is **December 31, 2017**.

Peer review is an important part of producing high quality journal articles. Please consider serving as a referee for our Special Issue by sending an email to one of the following Guest Editors.

**Prof. Yasushi Ono**  
The University of Tokyo  
101A2, Engineering  
Building No.2,  
7-3-1 Hongo, Bunkyo-ku,  
Tokyo 113-8656  
Japan
