PFR provides an accessible and comprehensive source for analysis and contemporary information and data in every area of plasma and fusion research.

PFR covers wide disciplines of plasma science and technology, including basic plasma physics and new trends, magnetic confinement fusion, inertial confinement fusion, fusion engineering, and applied plasma physics.

PFR provides **free access** to full text articles via the Web. There is no subscription fee for access.

PFR is covered in Scopus (Elsevier product), and Emerging Sources Citation Index (Clarivate Analytics product).

PFR is linked to various worldwide electronic journal sites. The papers published in PFR also appear in J-STAGE and are linked to papers on various worldwide electronic journal sites via ChemPort, PubMed, and CrossRef.

PFR is committed to minimizing publication delays by the use of e-mail and the Web in reviewing, editing, and publishing processes.
